

GUIDELINES FOR PRESENTATIONS

ORALS

- **Invited speakers of the Workshop:** total time for the presentation 40 min; we suggest 34 minutes for the presentation and 6 minutes for questions
- **Other orals:** total time for the presentation 18 min; we suggest 14 minutes for the presentation and 4 minutes for questions
- **Invited speakers of the Satellite course:** respect the time given, consider that the satellite is a course, with lectures with theory and practice to be carried out by the attendees. Thus, the time available should be freely organized by the speaker.

Format of the slides for the oral presentation: free format, as long as they fit on a screen of 300 cm x 250 cm. However, we suggest, for the height of the room, widescreen slides (16:9). Please make sure the **fonts are big enough**, and contrasted with respect to the background, to be read in a large room (see below). Modeling is already complex enough when the number and figures can be seen properly, no need to add extra complexity...

The room is 12.8 meters long, 17.5 meters wide, and 3.2 meters high. See the room here: <https://www.hotelcatalunya.it/en/hotel-for-congress-alghero.html>
